MOLOTOV SUGGESTS EAST-WEST COMPROMISE

PARIS, Oct. 10--Soviet Foreign Minister Vyacheslav M. Molotov said the East-West division among nations was becoming absurd, and suggested compromises on "certain outstanding questions," but made it clear that he unwillingly yielded on Trieste.

He charged that the United States and Britain are trying to establish a semi-colonial regime in Trieste. He blamed the Trieste disturbances on Anglo-American occupation forces, and asked that a conference be organized like prewar Danzig.

Molotov told the conference, 48 hours after his return from Moscow, that "the division of the West from the Slav states or the East from the West was becoming an absurdity.

"Such labels confuse the issue. It is not a question of a Slav or Eastern group on one hand or an anti-Slav or Western group on the other.

"The Soviet delegation is as anxious as any other delegation to assist in strengthening cooperation among all democratic states. I call on all others to consider such cooperation essential."

Molotov said that Britain and the United States are increasing dissension by trying to isolate the Slav state and "punish" them by interfering with their natural development.
